Integrated Management System Policy Statement

Kasese Nail & Wood Industry Limited specializes in civil engineering projects including the construction of roads, bridges, infrastructure such as schools, hospitals, warehouses, buildings etc. KNWI can also maintain, rehabilitate and repair infrastructure projects and has the facilities to maintain its own fleet of machinery and vehicles. Other services in support include carpentry, manufacture of concrete products, earthworks and Logistical handling.

KNWI has considered its use of resources from the earth as well as its impact on the environment. We have also implemented "Risk Planning & Prevention" in all our processes and have instilled a culture of awareness for the Safety, Health, Environment & Quality of our services which has driven us to consider international certification to ISO 9001: 2015, ISO 18001: 2007 and ISO 14001: 2015 standards.

All of our processes are based on the PDCA Plan, Do, Check & Act Principle. This is to ensure that our processes remain consistent in producing quality product & service with minimal impact on the environment and with consideration to the health & safety of our employees & other stakeholders.

Quality, Health, Safety & Environmental excellence is incorporated into all of our processes and is promoted throughout our organization by the following principles:
